

Uganda Martyrs University

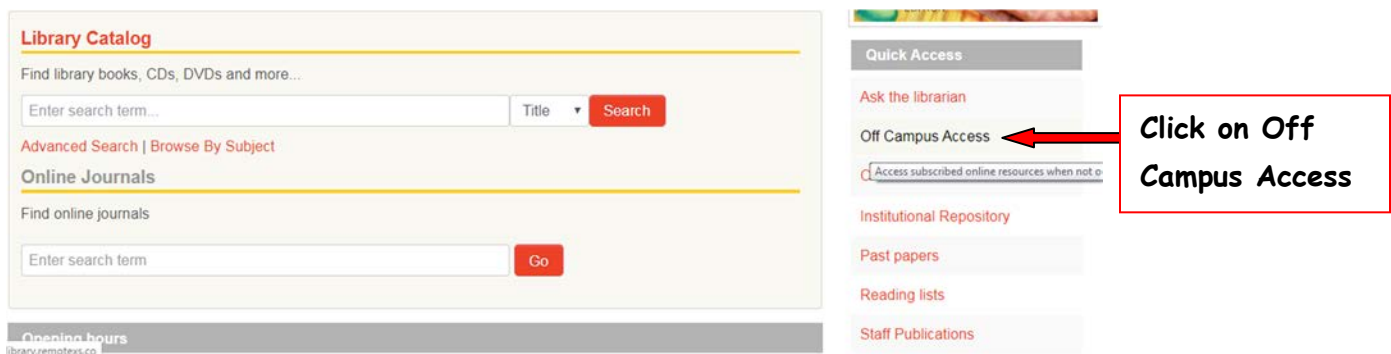

Archbishop Kiwanuka Memorial Library

User guide to Off-campus access to electronic resources using RemoteX

RemoteX is a tool to enable users access publisher resources (journal articles and e-books) subscribed to, away from the Main Campus (anywhere, at any time) with Internet connectivity.

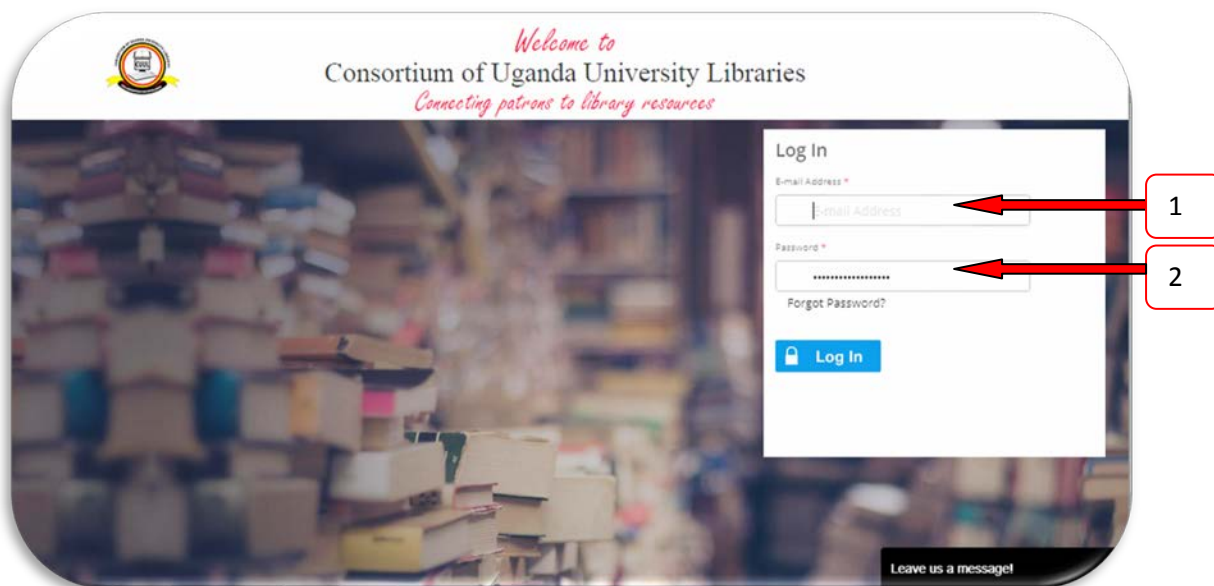

Step 1: visit library.umu.ac.ug

Click on Off Campus Access link under the Quick Access menu

The screenshot shows the library website's navigation menu. The 'Quick Access' menu is expanded, showing several options: 'Ask the librarian', 'Off Campus Access', 'Access subscribed online resources when not on campus', 'Institutional Repository', 'Past papers', 'Reading lists', and 'Staff Publications'. A red arrow points to the 'Off Campus Access' link, which is enclosed in a red box. To the right of this box, the text 'Click on Off Campus Access' is written.

OR visit <https://cuulelibrary.remotexs.co>

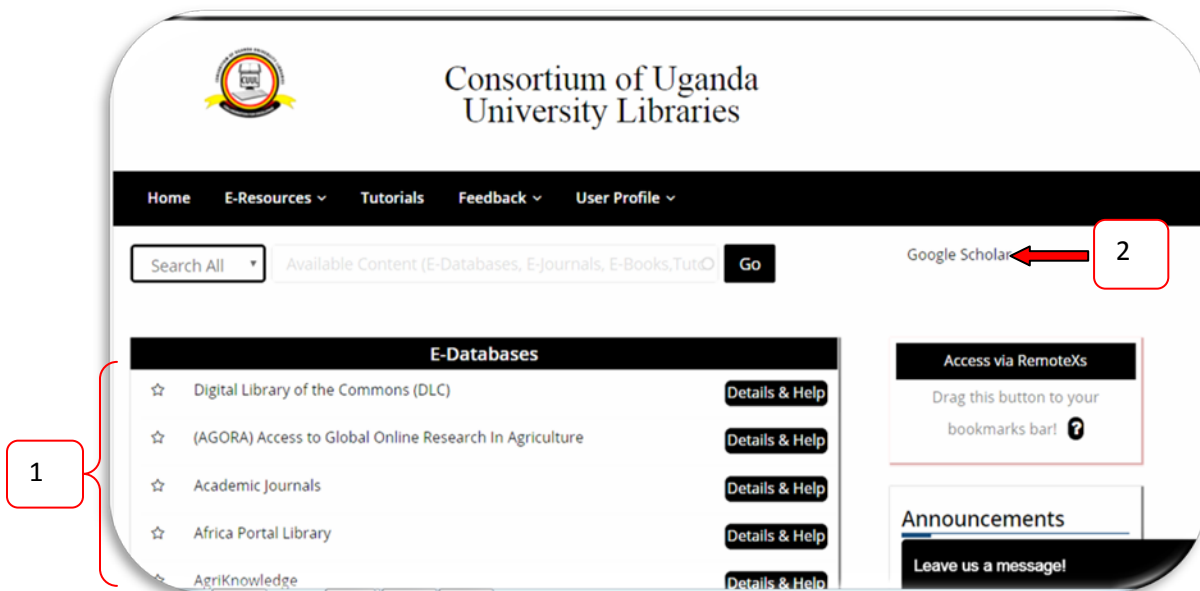

The screenshot shows the login page for the Consortium of Uganda University Libraries. The page features a header with the university's logo and the text 'Welcome to Consortium of Uganda University Libraries Connecting patrons to library resources'. Below the header is a large image of a library stack. On the right side, there is a 'Log In' form with two input fields: 'E-mail Address *' and 'Password *'. Red arrows point to these fields, with the number '1' next to the first arrow and the number '2' next to the second arrow. Below the password field is a 'Forgot Password?' link and a blue 'Log In' button. At the bottom right, there is a 'Leave us a message!' link.

This will prompt you to login as in 1 & 2 above

Step 2: Log in using the username and the password as provided to you by the librarian

A list displaying e- databases, e-journals and e-books will be shown

Step 3: Browse through the list of electronic databases, journal titles and/or e-book databases to identify your choice.

1. Browse through the list and search

OR

2. Search through Google Scholar

As a first-time user, you are required to create a personal account before you can search the database. This will also help you to work within your account and have a "book shelf".

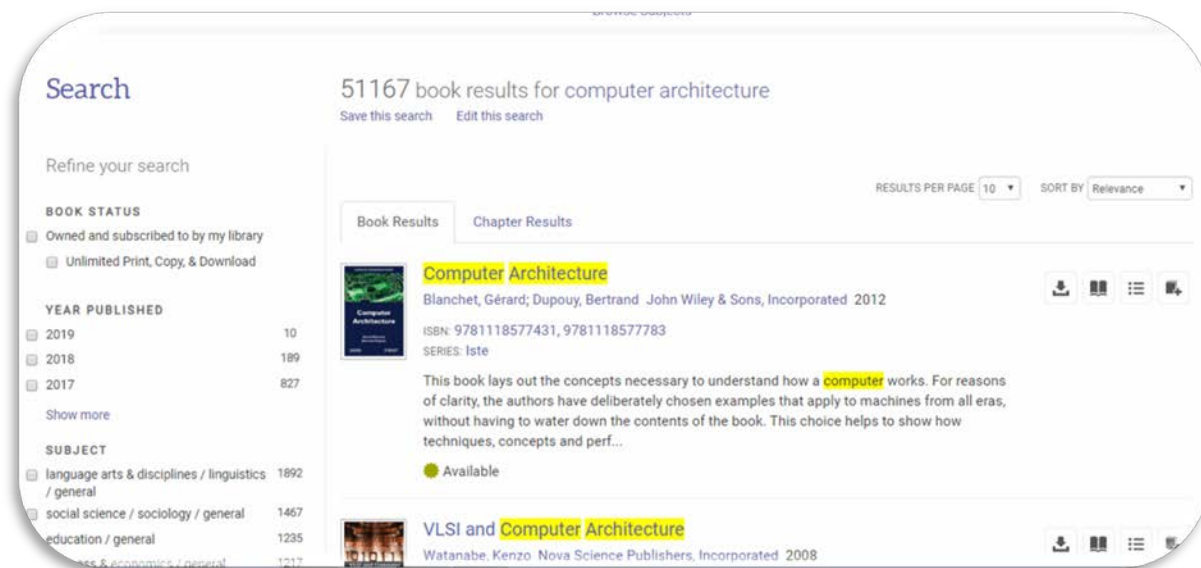

Already with an account, sign in and search for books from the database.

Proquest E-book Central window will open recognizing your institution and providing you with a search box to run your search. You can search using title, subject or author.

Take an example below of "computer architecture" and search

Below is the result page

Browse through the displayed results and choose the most appropriate title.

Further information about the item will show e.g. "table of contents", and variety of options on how to access the item.

You may decide to "read online" or "download the entire book" and/ or the preferred "chapter".

Computer Architecture

Gérard Blanchet and Bertrand Dupouy

Availability

Your institution has unlimited access to this book.

Get up to 65 pages, use any PDF software, does not expire.

Description

This book lays out the concepts necessary to understand how a computer works. For reasons of clarity, the authors have deliberately chosen examples that apply to machines from all eras, without having to water down the contents of the book. This choice helps to show how techniques, concepts and performances have evolved since the first computers. The book is divided into four parts. The first four which are of increasing difficulty, are [Show more](#)
